South West Coast Path Challenge

What will your Challenge be?

**WHAT IS IT?**

The South West Coast Path Challenge taking place in October 2015 will set the world record for the number of times we can walk or run the Coast Path in one month. We are encouraging as many schools as possible to take up the Challenge and add their miles to our target. Schools can register their challenge online or join us on a 10 mile organised challenge in key locations in Somerset, Cornwall, Devon and Dorset, raising money for the South West Coast Path Association and the National Trust for essential improvement and repair projects to the stunning Coast Path.

It costs at least £1000 every year to look after one mile of Coast Path

**HOW CAN YOU GET INVOLVED?**

- Create a School Challenge – pick any location on the Path and any distance, from 10 miles to the entire 630 miles and cover the distance together
- Register a staff team – get together and celebrate a milestone anniversary (e.g. 20 miles for 20 years) or organise a staff relay to add more miles to the record!
- Join an organised 10 Mile Challenge event near your school
- Get everyone involved; pupils, staff, governors and suppliers
- Promote the Challenge to the school community through schools newsletters, website and social media

**BENEFITS FOR YOUR SCHOOL**

- Show your support for the South West Coast Path Association
- Promote health and wellbeing to your entire school community
- Discover the South West Coast Path history and heritage, geology, wildlife and natural environment
- Team Building and social occasion for your staff
- Fundraise for your school or charity cause of the year

**WHAT NEXT?**

Just get in touch with us for ideas and to discuss the event in further detail.
