WHAT IS IT?

The South West Coast Path Challenge taking place in October 2015 will set the world record for the number of times we can walk or run the Coast Path in one month. We are encouraging as many youth groups as possible to take up the Challenge and add their miles to our target. Groups can register their challenge online or join us on a 10 mile organised challenge in key locations in Somerset, Cornwall, Devon and Dorset, raising money for the South West Coast Path Association and the National Trust for essential improvement and repair projects to the stunning Coast Path.

It costs at least £1000 every year to look after one mile of Coast Path

HOW CAN YOU GET INVOLVED?

- Create your own bespoke Challenge of any distance, at any location on the Coast Path, e.g. celebrate a milestone anniversary by walking a mile for every year!
- Get teams together and take part in an 10 Mile Organised Challenge near you
- Promote the Challenge to your wider community and get more people involved
- Why not organise a relay Challenge and add even more miles to our target?

BENEFITS FOR YOUR GROUP

- Achieve a goal and align them to your group’s achievement recognition schemes
- Enjoy a team bonding experience and create memories
- Raise funds for your group or charity of the year
- Support the South West Coast Path Association
- Get outdoors and experience the Coast Path environment, learn more about the heritage, history, wildlife and nature of the Path
- Create a great story for your communications

WHAT NEXT?

Just get in touch with us for ideas and to discuss the event in further detail.
